FRANCE, ITALY AND SPAIN STEEL THE GREAT

Action Already Planned If Fascist Forces Fail To Quit Spain At Close Of Civil War

ROME, Jan. 26.—Premier Mussolini raised cries of "Tunisia!" from a wildly cheering crowd of Fascists tonight by declaring Italians would "pass" again as they had in the conquest of Barcelona. Referring to the Spanish government slogan "No Pasaran," Mussolini said, "We passed, and I say to you that we will pass." A crowd estimated at 50,000 clamored for Il Duce until he appeared on the balcony of the Palazzo Venezia. He described the capture of Barcelona as a "splendid victory" and called it "another chapter in the new Europe we are creating." The shouts for Tunisia, France's protectorate in North Africa, were interspersed with cries also for the Island of Corsica.

PARIS, Jan. 26.—Premier Edouard Daladier announced today France and Great Britain had agreed to take "the necessary steps" to meet an Italian threat if the Fascist forces fail to leave Spain at the close of the civil war. The premier said precautions have already been taken to protect French and British communication lines in the Mediterranean where warships of the two powers now are on training cruises.

Premier Daladier failed to explain exactly what measures were foreseen in case Italian expeditionary forces do not leave but official sources have already made known what some of these steps might be. They are French occupation of Spanish Morocco and joint British and French occupation of the Spanish government island of Minorca, adjoining the island of Mallorca, alleged to have been converted into an Italian air base.

Foreign Minister Georges Bonnet declared France's differences with Italy might soon become a "question of force." Referring to persistent Italian clamor for French colonial holdings, he said: "Difficulties may await us in the near future. We will face them with the courage of a people sure of its destiny. These difficulties have been announced and foreseen. It is a question of force."

LONDON, Jan. 26.—Prime Minister Chamberlain called his chief ministers into conference today immediately after word of the fall of Barcelona. They reviewed the European situation in the light of Spanish developments. This was also the subject of conferences at the foreign office between British leaders and the ambassadors of France and Germany.

France was represented as fearing encirclement by the totalitarian powers of the Rome-Berlin axis, now that her northeastern, eastern and southern frontiers are dominated by Germany, Italy and insurgent Spain.

The French also believe General Franco purposely will let the war drag on while Italian troops remain in Spain and Italy presses her demands for French territory.

PARIS, Jan. 26.—Foreign Minister Georges Bonnet gave Italy a solemn warning today to keep hands off the French colonial Empire. "France cannot permit anyone to touch the Empire she founded with her blood," Bonnet declared in the cheering Chamber of Deputies.

His speech came just after the government called 80,000 young men, six months ahead of schedule, for service at a time when Italy's demands for a share in the French empire are reaching a climax.

The French minister also delivered a warning to Germany. "The French government does not intend to discontinue itself in central Europe. We have stayed in constant contact with Russia and Poland. There must be no end to the legend that our policy has desecrated."

POWER NEEDED TO WIN PEACE IN WORLD TODAY

Maj. Gen. Griesbach Outlines Conditions to Military Institute

Declaring that only in powerful alliances will safety be found, Maj. Gen. W. A. Griesbach, C.M.G., D.S.O., V.C., of the Royal Canadian Mounted Police, at the conclusion of Gen. Griesbach's address to the Military Institute at Ottawa, Wednesday night, stated that the only way to win peace in the world is by the acceptance of the conception of a universal commonwealth without reservation.

Col. H. deW. Walton, president, was in the chair. Gen. Griesbach spoke on the subject of "Canada, the Empire and the Commonwealth."

The meeting was largely attended and at the conclusion of Gen. Griesbach's address, the speaker was the recipient of a vote of thanks.

The fate of China, Ethiopia, Austria and Czechoslovakia, the weak countries who stand in the way of the "authoritarian powers," he said.

"Only in powerful alliances can we be secure," he said, "and the strength of the democratic powers save themselves and the weak states who are subject to them."

CRYSTAL CLEAR
"In this condition of world affairs the policy of Canada ought to be crystal clear. We should not make the commonwealth so strong that it would be no enemy will dare to attack."

Gen. Griesbach said that one hundred years ago there were three British Empires. The first empire came to an end with the Revolution of 1776. The second empire came to an end with the Revolution of 1848. The third empire, which is referred to as the British Commonwealth of Nations came to an end with the Revolution of 1914.

THREE SECTIONS
He said that for the purposes of his discussion the Canadian population could be divided into three sections, the British element comprising 50 per cent, the French element 30 per cent and the foreign element 20 per cent.

"I will assert that the British element accepted the conception of a universal commonwealth with all that it implies," he said, "but the French element, and the foreign element, have not become extremely vocal and it is opposed to it, possibly because of the finance and trade of Canada."

Summing up his observations on the President, Gen. Griesbach said that "it is conceivable and it is probable that the approaching conflict French Canada will take her proper place in the national effort and that, in the end, her reward will be the affection and respect of all."

"It may or may not be a curious thing, but I think that I detect in the average English-speaking Canadian, a genuine desire to see, on terms of close intimacy affection and respect with our French Canadian fellow citizens."

FOREIGN ELEMENT
Dealing with the foreign element, he said that "the foreign element is for the most part docile and kind and pleasant and friendly in Canada. It is learning to speak English and no longer French."

Gen. Griesbach reviewed the Munich pact and its effects. He said that "the first thing that struck me in Munich was that from now on diplomatic relations with the international situation will be conducted upon the basis of armed strength and peace can only be had by the use of force."

Declaring that he could not answer the question as to whether or not there would be a world war, he said "but what is clear to me is that it is no war for the future and for many years to come the relationship between nations will rest upon armed strength and peace and balance found therein."

VOTE OF THANKS
Following the lecture there was a general discussion covering some of the more important points brought out by the speaker. Maj. Gen. W. A. Griesbach, V.C., moved a vote of thanks to the speaker.

Junior officers' lecture was given by Lt. G. G. Hartling, of the King's Battery, R.C.A.
